

We are the trusted technology partner for APAC health and aged care providers. Our purpose is to use data to improve the quality of care, in service of the quality of life.

**WE BELIEVE...**

 Meaningful revolutions start with safe evolutions

 Data should be used to ensure dignity

 Technology is best when combined with human intelligence and the human touch

 The best care is informed care

**TRUSTED PARTNER OF...**

**The BIG 5 Challenges facing Health and Aged Care**  
Which of these are holding up your digital transformation?

Work Force

Financial Sustainability

Regulatory Compliance

Managing Risks

Reputation

**Your Digital Transformation Journey**

**GOAL**

What is the goal you aim to achieve with the incorporation of digital technology into your service?

1

**OPERATIONS**

What will need to change in your operating model? Consider the steps along the client journey, the financial model and client touch points.

3

**REVIEW**

What data will assist in the further development of the digital journey? Consider the user experiences, the lessons learned and what can be improved.

5

2

**GOVERNANCE**

What committees will be involved in the process? Board support and executive engagement is essential. This is a journey not a project.

4

**STAGE 1**

Start with the first stage of implementation. What is the experience of all stake holders? What data will be measured in this first iterative step.

6

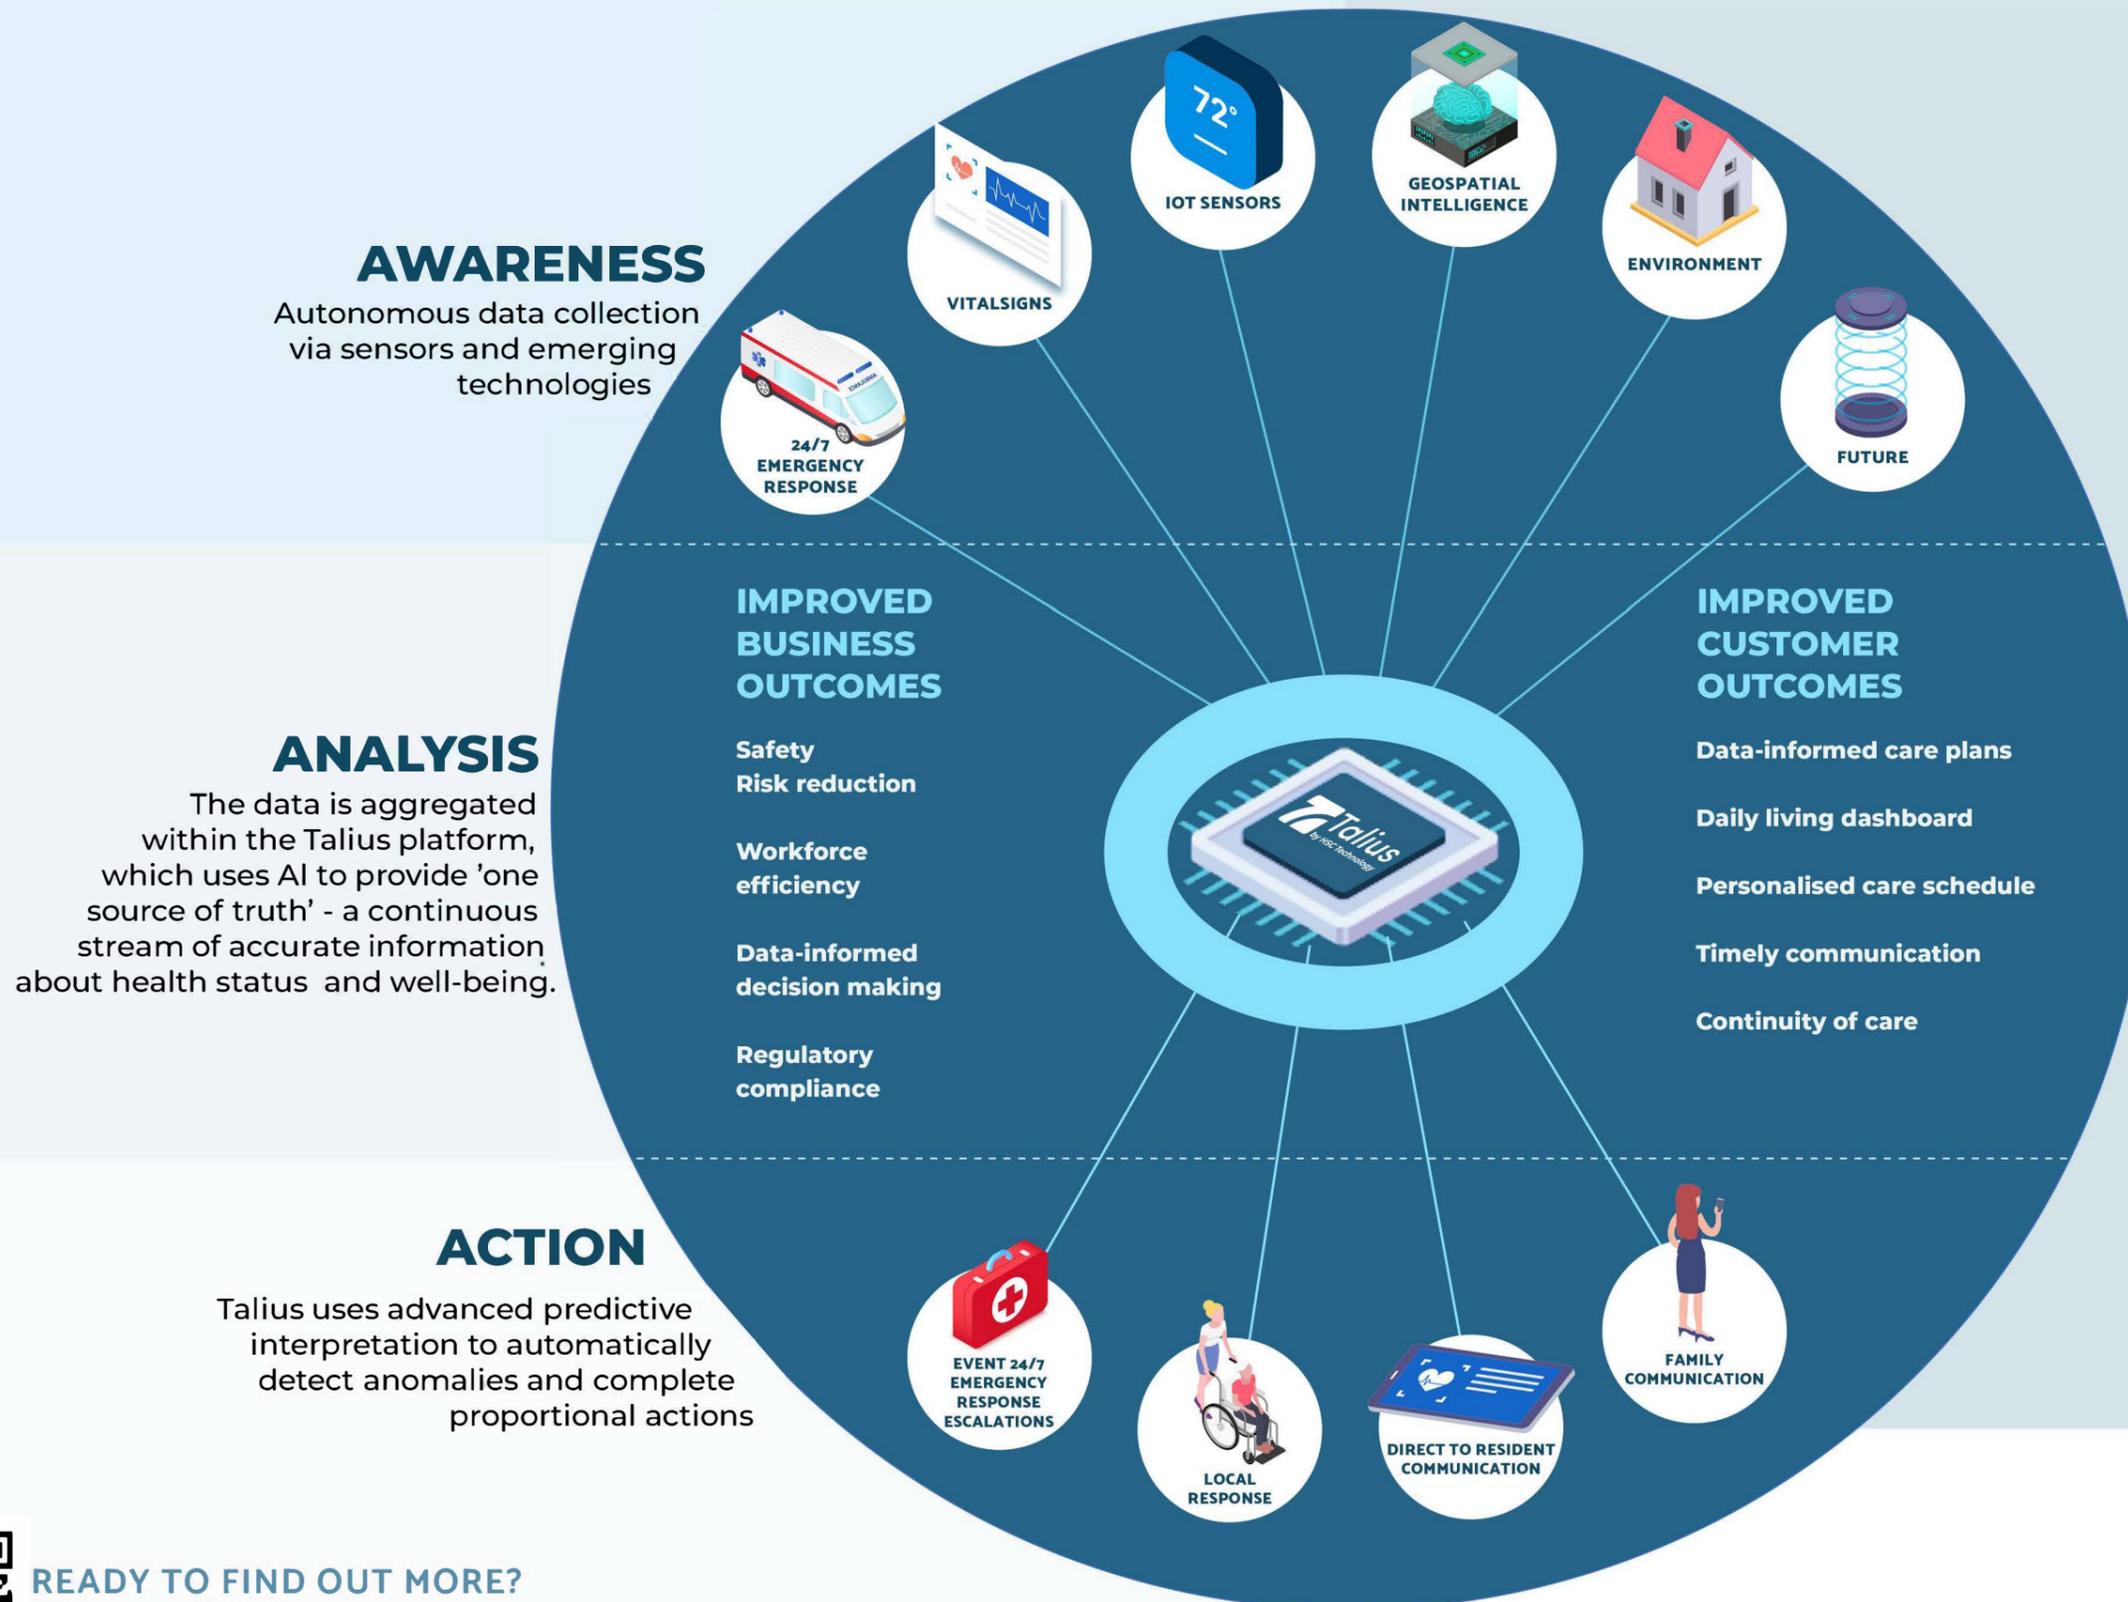

**STAGE 2 & SCALE**

Adjust the next iteration of the process to include what was learned in the review and how more people can receive the services. What is the experience of the team - what needs to change for workflow on the next iteration?

# How do we solve these challenges?

## INTRODUCING THE TALIUS HEALTHCARE PLATFORM

Talius is an AI-powered, sensor-enabled platform that supports APAC health and aged care providers to operate safer, smarter and more profitably

### TALIUS WILL GIVE YOU A COMPETITIVE ADVANTAGE.

**You get a platform that grows with you** – scalable and adaptable, even when regulatory standards, technology, or your customer’s care needs change.

**You get data to support you** – accurate data at your fingertips to support you and your team to make the right decisions for your business and your customers.

**You get a partner that is committed to the long-term** – we work with you to co-design the right solution and help you navigate the milestones on your digital transformation journey.
